

ISRAEL OLUROTIMI

Creative Product & Brand Designer

Lagos, Nigeria | israelolurotimi.com@gmail.com | +234 813 934 0061 | linkedin.com/in/israel-olurotimi | israelolurotimi.com

SUMMARY

Multidisciplinary designer working at the intersection of product, technology, and brand, practicing since 2017, with professional experience since 2021 across SaaS, mobility, EdTech, and consumer platforms. Recurring pattern across engagements: taking on underspecified problems, a product with no design system, a brand with no identity, and building the structure needed to scale them.

EXPERIENCE

Creative Director & Design Lead | Rebrand — TheBrand™

Jan 2024 - Present, Lagos, Nigeria (Remote)

- Managed a multidisciplinary creative and product agency, directing brand strategy and identity work alongside a digital product development service line, managing a small cross-functional team of designers and developers.
- Led full brand identity and end-to-end product design for Lykluk, a social commerce and video platform for African creators. Designed a new design system, the complete mobile app (video, marketplace, monetization), a creator web app, and an internal admin platform. The live app today still runs on these designs.
- Directed the flagship brand identity system for Revolve (RXUT), a gold-backed digital asset platform.
- Established a full brand overhaul for Project I-Q Services LTD, a building and civil engineering construction and consulting firm, replacing a single decade-old logo with a complete system that has generated fresh leads for the business.
- Own the agency's creative-direction workflow, translating client briefs into design language for other designers, and directed conversion-focused brand and product strategy for Wellanin, including a pitch to the Taraji P. Henson Foundation.

Co-Founder, Product Design & Brand Strategy | Checksoma (SOMA)

2026 - Present, Remote

- Designed SOMA, an offline-first school operating system for Nigerian secondary schools.
- Own product design, UX strategy, and product architecture, modeling Nigerian school-specific structures, alongside the full brand identity and go-to-market strategy, currently in beta testing.

UI/UX & Product Designer | SoftStructures Limited

Oct 2021 - Mar 2024, Lagos, Nigeria

- Directed creative vision and brand-aligned web design while leading end-to-end product design for Scout4Job, a digital recruitment platform and job site, growing registrations to approximately 6,000 within six months.
- And NeüRMS, and integrated retail management software, replacing dependency on foreign tools with a localised tool tailored to serve Nigerian small and medium-sized enterprises (SMEs).

Independent Brand & Product Designer | Freelance

Nov 2023 - Aug 2025, Remote

- Designed the complete brand identity and product experience for Popin, a combined shortlet, car rental, and events platform, both user- and host-side, collaborating with the development team through alpha testing.
- Led the full UX/UI redesign and systems architecture for PolarRide, a car-share and driver-hire platform, including country-configuration and modular KYC systems, shipped at a launch event in Maryland, USA.

- Delivered a complete component-based style guide and UI/UX package for Fitnest's gym membership app, as a one-month engagement.

Freelance Designer & IT Project Lead | Reboot Monkey (RM Staffing B.V.)

Sep 2024 - Oct 2025, Haarlem, Netherlands (Remote)

- Rebuilt the company's website into a brand-aligned, component-based design system, and separately owned a custom internal project management and HR tool end to end, from research through final testing.
