

ISRAEL OLUROTIMI

PRODUCT DESIGNER / UX/UI / DESIGN SYSTEMS

Lagos, Nigeria | +234 813 934 0061 | israelolurotimi.com@gmail.com
Portfolio: israelolurotimi.com | LinkedIn: linkedin.com/in/israel-olurotimi

PROFILE

Product designer with experience since 2021 across SaaS, social commerce, EdTech, mobility and internal tools. I turn complex requirements into product architecture, user flows, scalable design systems and production-ready interfaces, collaborating with engineering through launch.

EXPERIENCE

Product Design Lead Rebrand - TheBrand Lagos, Nigeria / Remote	Jan 2024 - Present
- Lead product and UX design for client and in-house work, from features and prototypes to component systems, developer handoff and launch support. - Designed Lykluk across mobile, creator web and admin, covering social commerce, video and monetisation journeys. Coordinate cross-functional contributors.	
Freelance UI/UX Designer & IT Project Lead Reboot Monkey Netherlands / Remote	Sep 2024 - Oct 2025
- Led UX/UI and delivery for an internal field-engineering operations platform combining project management, time tracking, invoicing and HR. - Designed a reusable company website system, later extended to multiple languages.	
Independent Product Designer Selected Client Engagements Remote	Nov 2023 - Aug 2025
- Redesigned PolarRide with market-specific configuration, multi-currency payments and modular KYC flows; product launched in Maryland, USA. - Designed user and host journeys for Popin and a UI/UX style guide for Fitnest.	
UI/UX & Product Designer SoftStructures Limited Lagos, Nigeria	Oct 2021 - Mar 2024
- Led Scout4Job UX/UI through launch; the platform recorded approximately 6,000 user registrations within six months. - Designed NeüRMS, a retail-management product adapted to Nigerian SMEs.	

PRODUCT VENTURE

Product Design & Strategy Lead Checksoma / SOMA Jul 2026 - Present Remote
Lead UX architecture, academic and administrative workflows and Figma design systems for an offline-first Nigerian secondary-school platform, currently in beta testing.

SKILLS & TOOLS

Product & UX: UX research, information architecture, interaction design, prototyping, usability testing, user flows, design systems, accessibility, localization, product architecture and handoff.
Tools: Figma, Jira, Slack, Hubstaff

EDUCATION

Middlesex University BSc Information Technology, First Class Honours 2017 - 2021
APTECH Computer Education Diploma in Computer Software Engineering, Distinction 2013 - 2016
