ISRAEL OLUROTIMI

PRODUCT DESIGNER / UX/UI / DESIGN SYSTEMS

Lagos, Nigeria | +234 813 934 0061 | israelolurotimi.com@gmail.com
Portfolio: israelolurotimi.com | LinkedIn: linkedin.com/in/israel-olurotimi

PROFILE

Product designer with experience since 2021 across SaaS, social commerce, EdTech, mobility and internal tools. I turn complex requirements into product architecture, user flows, scalable design systems and production-ready interfaces, collaborating with engineering through launch.

EXPERIENCE

Product Design & Creative Lead | Rebrand - TheBrand Jan 2024 - Present
Lagos, Nigeria / Remote

- Lead product and UX design for client and in-house work, from features and prototypes to component systems, developer handoff and launch support.
- Designed Lykluk across mobile, creator web and admin, covering social commerce, video and monetisation journeys. Coordinate cross-functional contributors.

UI/UX Designer & IT Project Lead | Reboot Monkey Sep 2024 - Oct 2025
Netherlands / Remote

- Led UX/UI and delivery for an internal field-engineering operations platform combining project management, time tracking, invoicing and HR.
- Designed a reusable company website system, later extended to multiple languages.

Independent Brand & Product Designer | Freelance Nov 2023 - Present
Remote

- Redesigned PolarRide with market-specific configuration, multi-currency payments and modular KYC flows; product launched in Maryland, USA.
- Designed user and host journeys for Popin and a UI/UX style guide for Fitnest.

UI/UX & Product Designer | SoftStructures Limited Oct 2021 - Mar 2024
Lagos, Nigeria

- Led Scout4Job UX/UI through launch; the platform recorded approximately 6,000 user registrations within six months.
- Designed NeüRMS, a retail-management product adapted to Nigerian SMEs.

PRODUCT VENTURE

Product Design & Strategy Lead | Checksoma / SOMA
Jul 2026 - Present | Remote

Lead UX architecture, academic and administrative workflows and Figma design systems for an offline-first Nigerian secondary-school platform, currently in beta testing.

SKILLS & TOOLS

Product & UX: UX research, information architecture, interaction design, prototyping, usability testing, user flows, design systems, accessibility, localization, product architecture and handoff.

Tools: Figma, Jira, Slack, Hubstaff

EDUCATION

Middlesex University
BSc Information Technology, First Class Honours | 2017 - 2021

APTECH Computer Education
Diploma in Computer Software Engineering, Distinction | 2013 - 2016
